CADETS ARE NOT TO ATTEND THIS ACTIVITY IF THEY ARE DISPLAYNG COLD/FLU SYMPTOMS, HAVE BEEN TESTED FOR COVID-19 AND ARE AWAITING RESULTS OR HAVE BEEN OVERSEAS OR TO A HOTSPOT IN THE 14 DAYS PRIOR TO THE ACTIVITY COMMENCEMENT.

COVID-19 Advice: The AAFC as part of the Defence Organisation has implemented strict COVID-19 risk control measures based on current recommendations from Federal and State Governments in order to minimise the risk of an uncontrolled COVID-19 transmission within the cadet environment. Parents/Guardians must carefully consider the information provided to them and then consider if participation in this activity is in their best interest of their cadet, despite the implementation of risk controls. Procedures and work practices may have changed since the cadet's last attendance and they should liaise with the OIC of Activity or Unit Commander prior to attending the activity.

"The ADF is currently unable to provide a severe food allergy-free environment (such as from peanuts) in relation to the consumption of food during cadet activities which involve centralised catering. Such a risk may be life threatening for children who suffer from a severe food allergy, and parents may consider it is in their children's best interest not to allow participation in the proposed activity. In the event that such children do attend a catered cadet activity, parents are asked to provide sufficient meals from home to cover the duration of the activity".
